

Train the Trainer: Autogas Vehicle Inspection Program

GET UP TO SPEED ON PROPANE AUTOGAS, WITH A TWO-DAY, ALL-EXPENSES PAID, HANDS-ON TRAINING FOR AUTOMOBILE SERVICE INSTRUCTORS

If you're interested in incorporating the latest learnings on servicing propane autogas vehicles into your curriculum, apply now to attend the new *Train the Trainer: Autogas Vehicle Inspection Program*.

This two-day, all-expenses paid training event will prepare you to instruct students on working with propane autogas vehicles, complete with take-away digital curriculums and student workbooks, among other valuable resources – an excellent way to bring your students more career opportunities after graduation, with a propane-specific curriculum.

TRAINING DATES & LOCATION

April 18-19

*Central Piedmont Community College,
Huntersville, NC*

WHO CAN APPLY

Any technical school or community college instructor teaching an automotive curriculum, looking to incorporate servicing propane autogas vehicles into their lesson plans.

HOW IT WORKS

1. Complete the online application between January 1 and March 31, 2024.
2. Prior to the training, complete our online course, *Propane Autogas Vehicle Inspection: Introduction for Automobile Service Technicians*.
3. Attend the training session and upon completion, implement the curriculum into your classroom.
