

PEP-Recognized Field Trainer

The PEP-Recognized Field Trainer program is now available in The Learning Center. This program is specifically designed for Field Trainers who want to learn more about how to deliver effective On-the-Job (OJT) training. The training is designed to improve coaching and mentoring skills and teaches how to use the PEP OJT Worksheets. While the PEP-Recognized Field Trainer program is an optional course for field trainers, there are several advantages to becoming a PEP-Recognized Field Trainer.

The Advantages of Becoming a PEP-Recognized Field Trainer

Field Trainers who successfully complete the PEP-Recognized Field Trainer program will learn how to:

- ▶ Apply instructional strategies and principles to field training sessions to increase learner retention.
- ▶ Deliver effective and engaging field training that keeps learners focused.
- ▶ Efficiently prepare for field training using PEP materials.
- ▶ Use PEP OJT Worksheets to ensure learners acquire the skills and knowledge necessary to perform actual job tasks within their field.
- ▶ In addition, PEP-Recognized Field Trainers will be able to grant CEUs for the completion of an OJT Worksheet.

Becoming a Pep-Recognized Field Trainer

The steps to become a PEP-Recognized Field Trainer require the successful completion of:

1. The PEP-Recognized Field Trainer program within The Learning Center.
2. The PEP Learning Path that aligns with the OJT Worksheet that is being delivered.
