

# Save Up to \$10,000 on Your New Propane Irrigation Engine

## EARN FUNDING TOWARD PROPANE EQUIPMENT PURCHASES.

Through the Propane Farm Research Program, producers can earn up to \$10,000 per application by documenting the real-world performance of propane-powered equipment.

Your new irrigation engine qualifies. And so do other eligible propane equipment purchases like power generators, heating systems, and more.

**Strengthen Your Operation. Share Data. Earn Funding.**

## Simple Steps to Earn Funding

The Propane Farm Research Program compensates ag producers for supplying operational data that demonstrates propane's efficiency, affordability, and reliability on the farm.

### QUALIFYING EQUIPMENT

Farmers can earn funding by switching to propane equipment including:

- Irrigation engines
- Building heat systems
- Power generators
- Flame weed control
